Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner suggested and it was agreed upon to cancel claim 53 as this claim is no longer encompassed by the base claim, claim 51, as claim 51, as amended, requires independently simultaneously visualizing necrosis and tumors in which contrast agent is uptaken, but claim 53 states "necrosis or tumors" and without the "simultaneously" limitation. Also, the intended limitations of claim 53 appear to be set forth in new claim 87. Change to be made by examiner's amendment to place case in condition for allowance..
